GOOD FOOD

Un juego para aprender a diferenciar la comida saludable de la que debemos evitar.

El "Virus" de la comida saludable

"Good Food" es una adaptación del conocido juego de mesa "Virus!". Las mecánicas son exactamente las mismas cambiando únicamente la temática.

En el juego original debemos conseguir 4 órganos sanos formando un cuerpo para alcanzar la victoria, y para ello nos servimos de cartas de medicinas y virus.

En esta versión el objetivo es conseguir 4 héroes "cuerdos" formando un reino para alcanzar la victoria. Para ello nos serviremos de cartas de comida saludable y comida no saludable.

El juego está en inglés para que pueda servir de apoyo al trabajo de vocabulario en esta lengua.

Juego original de Tranjis Games

¿Cómo se juega?

Como hemos dicho, las mecánicas para esta adaptación son iguales que las del juego original. Por tanto, así lo son las reglas:
